## **DETAILED ACTION**

1. Applicant's request for continuing examination (RCE), amendment and remarks filed 06/16/04 have been fully considered and entered. Claims 25-45 have been added as requested.

### ***Allowable Subject Matter***

2. The following is an examiner's statement of reasons for allowance:

As previously set forth, claim 24 was found allowable over the prior art of Takumi, Japanese Publication 05-059664. Takumi fails to teach treating a fabric with a composition comprising formaldehyde, polyethylene glycol having a molecular weight of from about 700 gm/mol to about 2500 gm/mol; and acid catalyst. Takumi only teaches immersing a fabric in polyhydric alcohol and exposing the dried fabric to formaldehyde vapor. Newly added claims 25-41 depend either directly or indirectly from allowable claims 24. For these reasons, claims 24-41 are found allowable. With regard to claims 42-45, independent claim 42 recites limitations of the same scope of claim 24, but more narrow. Specifically, Applicant sets forth the amounts of formaldehyde, polyethylene glycol, and catalyst. As such, claims 42-45 are also found allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Donald Hasses on August 9<sup>th</sup>, 200
